DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4-8 and 11-25 allowed.
2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of independent claims 1 and 8 is the inclusion of the limitations of "disposing a first light detecting structure behind the second light providing structure" and "disposing a second light detecting structure behind the first light providing structure" and also the limitation of each of the first and second light providing structures comprising a "plurality of partially reflecting surfaces distributed along the longitudinal axis to partially reflect the source beam for providing the light beams in the light sheet such that light intensity of the light beams varies along the longitudinal axis," which are not found singularly or in combination within the prior art.

The closest prior art references (Amitai (WO 01/95027), Graham et al. (US 7,099,553), Cok (US 7,042,444) and Graham et al. (US 6,351,260)) teach a method for determining a location of an object substantially touching a touch pad. The prior art references, however, fail to teach of the detectors being disposed behind the light providing structures, and rather have the detectors located adjacent to, but not behind,

the light providing structures. The prior art also fails to teach of the light providing structures comprising a plurality of partially reflecting surfaces distributed along the longitudinal axis to partially reflect the source beam for providing the light beams in the light sheet such that light intensity of the light beams varies along the longitudinal axis. Graham et al. (US 7,099,553) teaches of using totally internal reflection facets arranged in a step like-manner which provide a substantially uniform light sheet, which cannot be said to be partially reflecting nor to provide a light sheet where the light intensity varies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
